

Annex 9C: # of people receiving direct assistance via humanitarian programmes, disaggregated by region/country

SOS Børnebyerne

Our definition largely follows the one suggested by MFA, i.e., :

- 1) people provided with tangible goods/materials, such as resources, hygiene kits and food;
- 2) people provided with services, such as protection, healthcare, education or psycho-social support;
- 3) people supported through activities designed to raise knowledge, awareness and skills, such as training or mentoring.

Further, SOS counts:

- 4) only new people enrolled into a project in a given year. We are aware that this means that the numbers reached this reporting period, does not include people reached from previous years' entries, even if the same person continues to be supported.
- 5) for basket-funding, we only include the share of people reached, which is similar to the financial contribution of the part of the grant reported on.

Region / country	Name of agency (SPA partner or Southern partner)	Total people reached	Women (18+)	Men (18+)	Girls (<18yo)	Boys (<18yo)	Notes
Ukraine	SOS Children's Villages Ukraine	7,120	2,318	1,242	1,730	1,830	Crisis-affected people living in Southeast Ukraine
